Presentations are available on the ECIBC web hub and/or on the CIRCABC dedicated space

The Agenda is available at <http://ecibc.jrc.ec.europa.eu/-/gdg-working-meeting>.

## **Title**

The list of prioritised questions is discussed.

There are three types of questions:

1) Questions which can be addressed by PICOs: The attendants agreed on the list. Miranda Langendam will work on those questions to develop PICO formats.

2) Questions for which information will be collected for requirements and a good practice statement will be issued: The attendants agreed on the list.

3) Questions which will be address de by consensus. The attendants agreed on the list.

For radiographers, the technical outcomes should be included in the QA Scheme requirements, while the outcomes related to women should be included in the Guidelines (e.g. pain).

Outcomes were discussed and a list of outcomes was prioritised for these professionals:

**Radiographer**

**Mammography reader**

**Assessment professional (the term is to be agreed on)**

**Breast care nurse**

**Pathologist (to be asked to pathologists in the GDG)**

## **Action points**

<b>Task</b>	<b>Who is responsible</b>
Develop the PICO format of the questions	M. Langendam
Pathologists in the GDG will be asked to provide a list of outcomes for pathologists	JRC
