

**The European Commission's
science and knowledge service**

Joint Research Centre

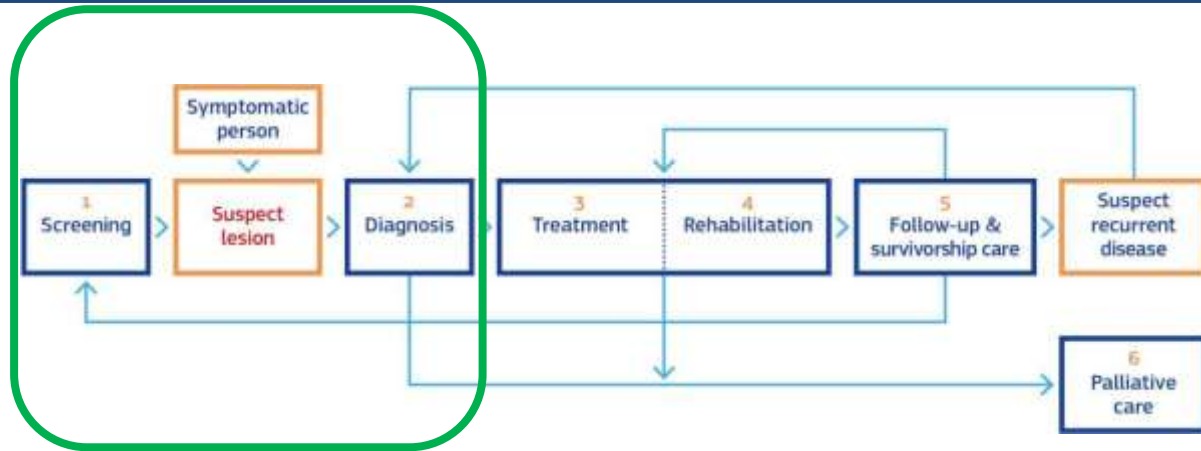

**Status of the development of
the European guidelines for
breast cancer screening and
diagnosis**

Chris de Wolf, Holger J. Schünemann

ECIBC GDG co-chairs

ECIBC pathway and Guidelines' scope

Recommendations:

- Evidence-based (PICO structure)
- Web-based

Guidelines' scope

Guidelines' chapters

- Screening
- Diagnosis
- Communication
- Training
- Interventions to reduce inequalities
- Monitoring and evaluation of screening and diagnosis

Scope

- Purpose of the guidelines
- Target population
- Healthcare setting
- Types of interventions
- Key stakeholders and users

The European Commission's science and knowledge service

Joint Research Centre

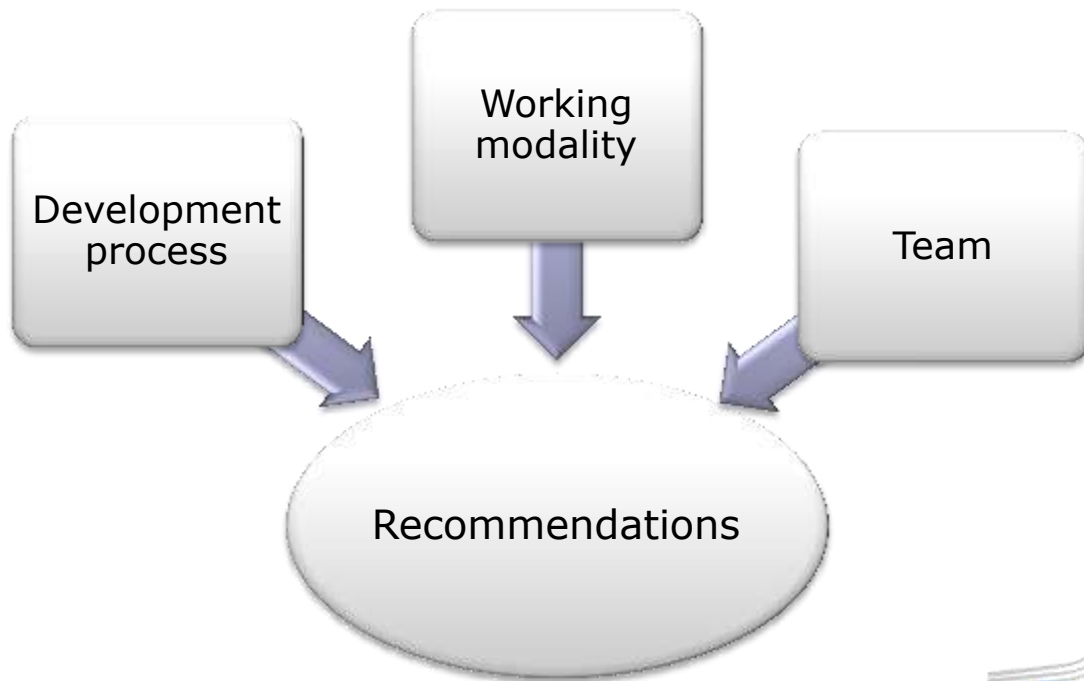

Feedbacks on the Guidelines' scope

Revision of the Scope:

- GDG **discussed** the results of the call for feedback – March 2016
- The Scope was **modified** accordingly
- The Scope and the feedback report will be **published** in 2017

Key elements for the development of the European Breast Guidelines

The European Breast Guideline's team

- ECIBC Coordination Team (JRC)

ECIBC Coordination Team (JRC)

The European Breast Guideline's team

- ECIBC Coordination Team (JRC)
- Guidelines development group (GDG)

Guidelines development group (GDG)

The European Breast Guideline's team

- ECIBC Coordination Team (JRC)
- Guidelines development group (GDG)
- Non-GDG members contributing to the GDG work
 - Systematic review team
 - National contacts and Stakeholders
 - 'Scientific advisors' and 'external experts'
 - External reviewers
 - Editors

Working modality

- Agreed rules of procedure
- Physical meetings at JRC premises and online collaboration:

European
Commission

CIRCABC

GRADEpro GDT

The official tool of GRADE

- GRADE approach to develop the recommendations
- Call for feedback on key documents

European
Commission

The development process

Preparation

- The Guidelines' scope
- Call for feedback

From evidence to decision

- Formulation of PICO questions
- Search for evidence

Recommendations

- Expert discussions and voting
- Translated into patients' language and EU languages
